

SCHOOL CHOICE FOR NH

Granite Staters care about educational issues that impact our children’s lives and academic outcomes. To that end, School Choice for NH invites all state candidates the opportunity to share their positions on various education policy issues. Please take a moment to complete this brief survey; compiled results will be published on our website. If you have any questions, please contact us at info@schoolchoicenh.org.

Name: _____

Candidate for: _____ District: _____

Email: _____

Phone number: _____

Please check a response that best fits your position for each statement below.

	Strongly agree	Agree	Neutral	Disagree	Strongly disagree
Only local district schools can meet the needs of children with learning differences.					
Public tax dollars for education should only go to public schools.					
Families know best regarding their children’s educational needs.					
Homeschoolers need more regulation and accountability.					
School choice gives all students the best opportunity for an education that fits their needs.					
True accountability is to families.					
Statewide assessments are the best tool to ensure children receive a good education.					
The use of tax dollars for educational options does not create an additional financial burden to our public schools.					
Children experiencing chronic bullying should trust their school officials to resolve the problems.					
Donations to tax-credit programs are a diversion of public money to private programs.
